

Reversed Box Rib™

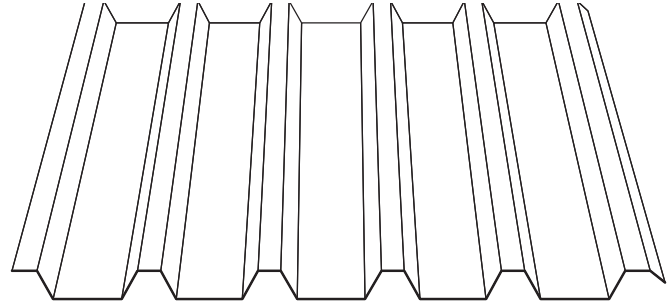

Architectural Roof & Wall Application
18 to 24 gauge

Featuring

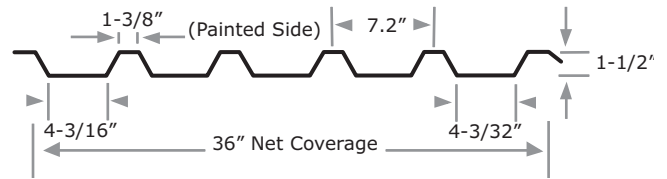

Zincalume® For Twice the Life!

Zincalume combines the strength of steel with the corrosion resistance of aluminum for twice the life of zinc coatings.

Reversed Box Rib is a through-fastened metal panel with full 36" net coverage and is ideal for commercial, industrial, and architectural roof and wall applications.

Reversed Box Rib (typical Roof and Wall applications)

features | benefits

- Wider coverage means fewer panels to handle and install, saving time and money.
- Panel design provides superior load and span capacities which often allow savings in the structural support system.
- Quick, economical trim packages include standard trim pieces that can be ordered by number.
- Panels can be crimp-curved for radius applications.
- 24 through 18 gauge panels available with the DuraTech™5000 (Polyvinylidene Fluoride) coating system or unpainted Zincalume® Plus*.
- 24 gauge is offered in the ZACtique® II Treatment for a weathered steel appearance.

Reversed Box Rib Section Properties

Gauge	Wt. (lbs/ft²)	S+ (in³/ft)	I+ (in⁴/ft)	S- (in³/ft)	I- (in⁴/ft)
24	1.20	.1161	.1160	.1065	.0853
22	1.52	.1581	.1567	.1503	.1167
20*	1.83	.1984	.1933	.1892	.1467
18*	2.37	.2590	.2500	.2507	.2100

* 18 and 20 gauge supplied as G-90 galvanized.
