

Mini-V-Beam™

Commercial and Industrial Roof & Wall 26 gauge

Featuring

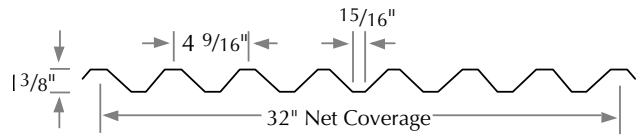

Zincalume® For Twice the Life!

Zincalume combines the strength of steel with the corrosion resistance of aluminum for twice the life of most zinc coatings.

Mini-V-Beam is a through-fastened metal panel with 32" net coverage. Mini-V-Beam is the preferred panel for industrial and agricultural roof and wall applications.

- ❑ Panel design provides superior load and span capacities, offering savings in the structural support system.
- ❑ Quick, economical trim packages include standard trim pieces that can simply be ordered by number.
- ❑ ICBO Diaphragm Shear Values when used with TEK screws.
- ❑ Steel panels with two resilient coating options:
 - Zincalume® Plus for unpainted applications.
 - DuraTech™*nt* coating system offered in the most requested industry colors.
