

Nor-Clad® 25

Featuring ColorGuard 25™

ColorGuard 25™ combines the strength of steel with a zinc coating to provide value and durability to any building project.

Nor-Clad® 25 is a light gauge, exposed fastener panel featuring value as well as durability. Its 36" coverage is ideal for residential and agricultural roof and wall applications.

- ❑ Full 36" net coverage means fewer panels to handle and install, saving time and money.
- ❑ Weather-Resistant Lap System Anti-siphon groove provides better weather tightness than most other light, exposed fastener panels.
- ❑ Purlin-bearing leg speeds installation of panels and improves the quality of panel side laps.
- ❑ Quick, economical trim packages include standard trim pieces, saving fabrication and installation time and money.
- ❑ Available in a variety of attractive ColorGuard 25™ coating colors.
- ❑ Manufactured with high tensile steel for strong load capability.
- ❑ Fiberglass skylight panels are available to match the profile of the metal panels.

ColorGuard 25™

A Coating System with Built in Value.

Responding to the demand for value and durability in a panel that is easy to install, ASC Building Products has engineered the

ColorGuard 25™ Coating System for ASC's

Nor-Clad® 25 profile. ColorGuard 25™ is a

1 mil thick primer and topcoat system

applied over a galvanized substrate. This

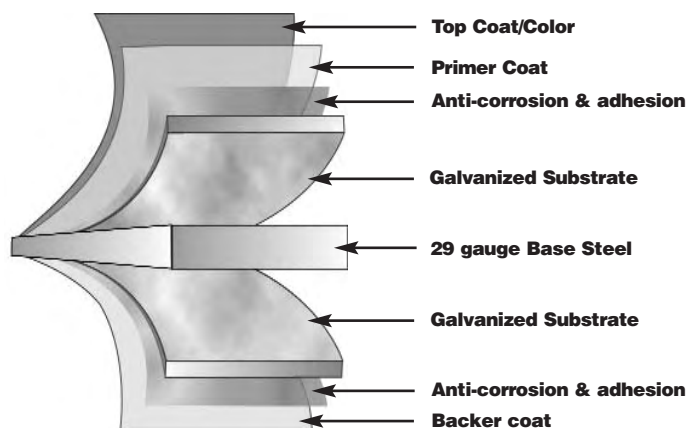

system has been engineered to resist

chalk and fade over a span of twenty-five years and is confidently backed by a written

warranty. Available to you in 29 gauge steel and nine of our most popular colors.
