

# Strata Rib™ x/

Reinforced major rib provides added strength.

**S**trata Rib™ x/ is a light gauge, exposed fastener panel with 36" wide coverage, preferred for residential roof and agricultural roof and wall applications.

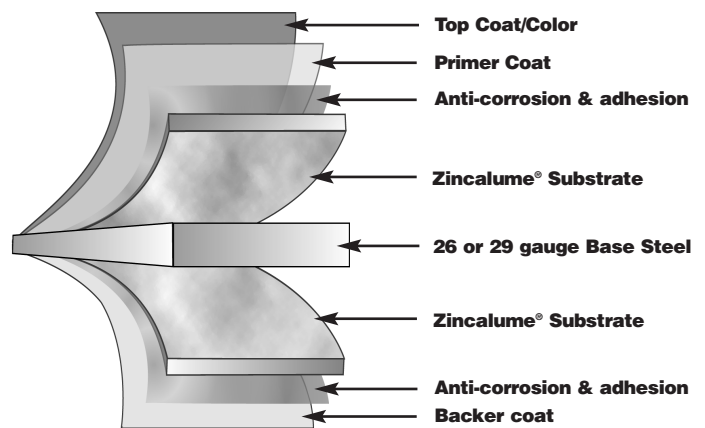

- ❑ Full 36" wide coverage means fewer panels to handle and install.
- ❑ Reinforced major rib provides easier handling and resists damage during installation better than most light gauge panels.
- ❑ Fitted side laps self-align each panel during installation for a clean overall finish.
- ❑ Weather-Resistant Lap System Anti-siphon groove provides better weather tightness than most other light gauge, exposed fastener panels.
- ❑ Purlin-Bearing Leg speeds installation of panels and improves the quality of panel side laps.
- ❑ Quick, economical trim packages include standard trim pieces, saving fabrication and installation time and money.
- ❑ Available in a wide variety of attractive colors in DuraTech™ x/ or Zinalume® Plus for unpainted applications.
- ❑ Manufactured with high tensile steel for excellent load capacity.
- ❑ Fiberglass skylight panels are available, matching the Strata Rib™ x/ profile.

## The DuraTech™ x/ and Zinalume® Coating System

ASC Building Products has enhanced the performance of its steel panels with the DuraTech™ x/ coating system. You can depend on superior color retention with DuraTech™ x/. This coating technology integrated with our proven Zinalume® coated steel is a system that promises a lifetime of durability.
